## The impact of COVID-19 on Narrative Reporting

Join us for a look at how the COVID-19 crisis could affect your company's narrative reporting – the front end of annual reports and other statements.

This webinar will cover both annual and interim reports, and touch on ad-hoc reporting for listed and AIM-quoted companies. We will discuss:

- What are investors looking for?
- What disclosures will regulators expect?
- Will more information be required in future reporting and what should you be preparing for now?
- Should you revisit your KPIs?

Please visit our website [here](#) for details of a range of COVID-19 related webinars
