The index provides insight into how small and mid-sized quoted companies have fared over the past year and how they view their prospects for the next year. In total, we received 131 responses from small and mid-cap companies (103) and advisory firms (28). Respondents indicated the highest levels of optimism in the surveys 10-year history.  - b) In June, the QCA, in conjunction with Henley Business School and Downing LLP, published the Board Performance Review Report (see [here](#)). The report analyses the current approaches to board performance reviews at various different organisations.
